General Cabell:

Mr. Kirkpatrick said that as they return, Mr. Pforzheimer is to check with the office of each one and determine whether the Congressmen would be available for a debriefing in Washington, or in the event they have returned to their home state if there would be any objection to the debriefing being conducted by a representative of the appropriate [redacted]. It was made clear that in any event each Congressman would be offered an individual invitation for a debriefing. Mr. Wisner noted it would, of course, be preferable if they could be debriefed in a group, however, he realized this would pose problems in some instances. General Cabell agreed but stated we would conduct group debriefings if requested. ACTION: IG

g. Stated the Director of Training had reported to him an apparent reluctance on the part of several components of the Agency to assign slots and absorb JOTS who have completed their course of instruction, thereby creating vacancies for new trainees. General Cabell said he had asked Mr. Lloyd in Col. White's absence for a paper on this problem which would: 1) solve it; 2) prevent reoccurrence. Col. White said he had not understood from Mr. Lloyd that a paper was desired, however, one would be prepared. He noted that steps have been taken to appropriately assign 28 JOTS who are currently occupying slots in the Office of Training. S. 9.20.55
